Dear Kevin:

I want to thank you for the absolutely wonderful job you did designing the student survey for our boys as well as for the girls at Greenwich Academy. As I know you realized during your assignment with us, the coordinate program between our two schools is a many-faceted and oftentimes complicated experience, but you grasped it immediately and fashioned a survey that, I think, truly captures the essence of it.

You gave an immeasurable amount of time and effort into this project and it showed from the outset. You were a pleasure to work with; we all truly benefitted from your expertise on every level. Brunswick goes forward a stronger institution better able to address the needs of our students, thanks in large measure to your diligence.

In the future, should we find ourselves in need of your service, Kevin, you can rest assured you will be hearing from us!

Warm regards,

Thomas W. Philip  
Headmaster
